

Branch	The Immortal Tao
Module 1	Lesser Enlightenment of Kan & Li – Spiritual Inner Alchemy
<b>Description</b>  	<p>This "Water and Fire" (Kan &amp; Li) formula is core Taoist internal alchemy (Neidan Gong). The fire in the Kan &amp; Li is the subtlest heart love energy, the water is the refined, creative sexual energy of the Kidneys and Sexual Organs. We gather the Five Shen, polarized male-female body intelligences that control our mind and let them reunite by lovemaking in our central channel what releases a blissful "steam" of Original Chi (neutral, unconditional love energy) that dissolves our old physical body and personality patterns. Our inner polarized male-female body intelligences that control our mind are reintegrated and unified. This process repairs vital organs, glands, spine, nerve, lymph and meridian systems, and births an Immortal Embryo or Light Body. Can resolve deep sexual crises, genetic illness, body-mind splits, recover "lost "soul fragments and enlighten you to your inner voice.</p>
